

SUMMARY

Entry-level **Data Analyst** skilled in **Python, SQL, Power BI, and Excel**, with hands-on experience in data cleaning, analysis, and dashboard creation. Passionate about transforming raw data into meaningful insights to support business decisions.

TECHNICAL SKILLS

Programming Languages: Python (OOPs, Functional Programming, File Handling, Exception Handling)

Data Analysis: Python libraries (NumPy, Pandas, Seaborn)

Data Visualization:

Power BI: Data Import, Cleaning, Transformation (Power Query), Data Modelling, Star Schema, Visualization, DAX, Interactive Dashboards.

Microsoft Excel: Data Cleaning, Power Query, Macros (Basics), VLOOKUP/HLOOKUP, Pivot Tables, Charts.

Databases: SQL (CRUD Operations, Joins, Subqueries, Views, Functions, Normalization, MySQL, SSMS, ETL Basics)

Web Technologies: HTML5 (semantic tags), CSS3 (flexbox, grid, responsive design), JavaScript (ES6+, DOM, event handling)

EDUCATION

Er.Perumal Manimekalai College OF Engineering
Bachelor of Technology (IT) – CGPA: 7.8

2021 – 2025
Hosur, T.N

Shanthi Nikethan Hr. Sec. School
High School (PCMC) – Percentage: 85%

2020 – 2021
Dharmapuri, T.N

Shanthi Nikethan Hr. Sec. School
10th – Percentage: 79%

2018 – 2019
Dharmapuri, T.N

PROJECTS

Drowsy-Alert And Fatigue Detection

- * Technologies: Python, OpenCV, Dlib, Raspberry Pi, Machine Learning .
- * Developed an AI-based real-time driver drowsiness detection system using **computer vision** and **deep learning** to enhance road safety.
- * Implemented **facial landmark detection** and **Eye Aspect Ratio (EAR)** algorithms to monitor eye blinks, yawning, and head posture for fatigue detection.
- * Designed a **non-intrusive, low-cost** solution compatible with standard cameras and embedded devices (Raspberry Pi).

HR Attrition Analysis

- * Cleaned and transformed data using Power Query and created calculated measures with DAX.
- * Used Excel for data cleaning and Power BI for DAX, data modelling, and visualization.
- * Analyzed employee turnover to identify key factors impacting retention.
- * Built an interactive Power BI dashboard showing tenure, salary distribution, satisfaction, job roles, and work-life balance.
- * Outcome: Provided actionable insights to help HR improve retention strategies.

INTERNSHIP

PySpiders Software Training

June 2025 - Oct 2025

Role: Data Analyst Intern

Bengaluru, K.A

- * Collected, cleaned, and analyzed large datasets using **Python (Pandas, NumPy)** and **Excel** to identify key trends and patterns.
- * Created **interactive dashboards** and **visual reports** using **Power BI / Tableau**, improving decision-making efficiency.
- * Applied **statistical techniques** and **data visualization** to generate actionable insights for business improvement.
- * Documented findings and presented data-driven recommendations to stakeholders for process optimization.

CERTIFICATIONS

- *SQL&DatabaseExpertCertification–HackerRank.*
- *PythonBasicsCertification–HackerRank.*
